A THIRD CONTRIBUTION TO THE STUDY OF LOCALIZED CEREBRAL LESIONS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Third Contribution to the Study of Localized Cerebral Lesions Offer the two subjoined cases as additional evidence of a localization of motor functions in limited areas, cortical and subcortical, of the cerebrum. The first case more especially demonstrates the results of a superficial irritating lesion of the cortex. While separately considered, these cases may not be of very great...

Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.
