

Our Only World: Ten Essays (Paperback)

Filesize: 3.73 MB

Reviews

It is one of the most popular ebooks. I have got to study it and I am certain that I am going to likely read it again yet again in the future. I am happy to inform you that this is actually the greatest ebook I actually have studied inside my very own life and might be the best ebook for possibly.

COUNTERPOINT, United States, 2015. Paperback. Condition: New. Reprint. Language: English . Brand New Book. Stern but compassionate, author Wendell Berry raises broader issues that environmentalists rarely focus on . . . In one sense Berry is the voice of a rural agrarian tradition that stretches from rural Kentucky back to the origins of human civilization. But his insights are universal because Our Only World is filled with beautiful, compassionate writing and careful, profound thinking. --Associated Press The planet s environmental problems respect no national boundaries. From soil erosion and population displacement to climate change and failed energy policies, American governing classes are paid by corporations to pretend that debate is the only democratic necessity and that solutions are capable of withstanding endless delay. Late Capitalism goes about its business of finishing off the planet. And we citizens are left with a shell of what was once proudly described as The American Dream. In this collection of eleven essays, Berry confronts head-on the necessity of clear thinking and direct action. Never one to ignore the present challenge, he understands that only clearly stated questions support the understanding their answers require. For more than fifty years we ve had no better spokesman and no more eloquent advocate for the planet, for our families, and for the future of our children and ourselves.
