Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Climate Analysis Center Fy 1992 Annual Report After another year of expanding interest in climate issues, the variety of projects and accomplishments at the Climate Analysis Center (cac) shows the value of a center with the mission to address near-real-time climate variations. Since there are now other groups who monitor and predict climate variations, perhaps it would be appropriate to emphasize the mission of cac: to define current climate anomalies and diagnose and predict them. However, our responsibility requires that our work also has application to agriculture, water resources, and energy. The past year s highlights are listed below and a description of all projects is given in the text. It is necessary to maintain, however, that these achievements sometimes rest on several years of preliminary results. These accomplishments depend on an excellent technical and administrative staff whose dedication and support is implied in all that follows. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
