The above plant can easily treat 1,500,000 ties annually, with reasonable allowance for breakdowns and interruptions, provided it is operated night and day. In the event 1,500,000 ties or more a year were treated, it would probably be necessary to add twounits of five each, or ten ovens to the plant, which would cost approximately \$25,000.00. It will be observed that such a plant requires only...
