

Nikola Tesla: Electrical Genius D (Paperback)

By Arthur J Beckhard

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Many books and articles have been written about Nikola Tesla s scientific achievements, but none of them succeed in stating these highly technical problems as clearly and understandably as Tesla himself does in his own writings and lectures. On the other hand, comparatively little has been written about Tesla the man. Therefore a special vote of thanks is due the late John J. O Neill for his book, PRODIGAL GENIUS: THE LIFE OF NIKOLA TESLA, a painstaking character study of the great scientist, his family and his background.

Reviews

This book is definitely worth getting. It usually will not price too much. Its been printed in an extremely simple way in fact it is only right after i finished reading this publication where basically altered me, modify the way i think.

-- **Avery Daugherty**

Without doubt, this is the very best function by any writer. It typically will not charge too much. I discovered this publication from my dad and i encouraged this pdf to discover.
