## Nuclear Tests

By Shapiro, Charles S. / Kiselev, Valerie I.

Condition: New. Publisher/Verlag: Springer, Berlin | Long-Term Consequences in the Semipalatinsk/Altai Region | Proceedings of the NATO Advanced Research Workshop "Long-Term Consequences of Nuclear Tests for the Environment and Population Health (Semipalatinsk/Altai Case Study)", held in Barnaul, Russia, September 5-10, 1994 | This volume focuses on the human exposures and medical effects studies in the Semipalatinsk/Altai region of Siberia that were a consequence of the radioactive fallout from nuclear test explosions that took place at the Semipalatinsk Test Site of the former Soviet Union. It contains a detailed account of a NATO Advanced Research Workshop (ARW) devoted to the subject, and a selection of the papers presented. The title of the ARW was "Long-term Consequences of Nuclear Tests for the Environment and Population Health (Semipalatinsk/Altai Case Studies)". The estimated exposures to large numbers of people in the Altai lie in an important dose rate and dose domain. Hence the research reported herein provides new and unique information on the effects of radiation on humans. Also emphasized at the ARW were studies involving fallout from the Pacific Island tests of the U. S. A. . . There have been over 2300 nuclear weapon test explosions to date. More than...

### Reviews

*This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).*

-- **Prof. Buddy Leuschke**

*This is the finest publication we have read through right up until now. Better then never, though i am quite late in start reading this one. Its been written in an remarkably easy way in fact it is only after i finished reading through this book by which basically altered me, affect the way i think.*
