NANOPARTICLES FOR GENE AND DRUG DELIVERY

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Nanoparticle-Mediated Delivery of Nucleic Acids to Mammalian Cells | Transient gene expression (TGE) in animal cells has become the method of choice for many researchers who wish to obtain small to moderate quantities of novel complex recombinant proteins for further functional and structural characterisation within weeks of cDNA discovery. TGE is more cost-effective than the time-consuming establishment of stable cell clones, but a key factor in ensuring that these transient systems...

Reviews

This book is really gripping and fascinating. Of course, it is actually play, nonetheless an interesting and amazing literature. You will not feel monotony at anytime of the time (that's what catalogs are for about if you request me).
