Therefore, the Army's vision is to immerse Soldiers and Army civilians in a progressive, continuous, learner-centric, competency-based learning environment from their first day of service. Within this environment, the Army applies a comprehensive program combining training, education, and experience to develop agile, adaptive, and innovative Soldiers, Army Civilians, and teams able to fight against capable and elusive enemies and win in a complex world. The Army intends to focus on the learner to strengthen and develop competencies that enable leaders to build trusted, cohesive teams capable of winning in all environments and across all domains. The learning environment will consist of tough and realistic conditions and include joint, interorganizational, and multinational components to prepare leaders for 2025 and beyond. The ALC-TE creates the conditions necessary for the Army to develop trained and capable Soldiers and Army civilians with the knowledge...
