

Decoding Darkness: The Search for the Genetic Causes of Alzheimers Disease

By Rudolph E. Tanzi

Basic Books (AZ). Paperback. Book Condition: New. Paperback. 304 pages. Dimensions: 9.0in. x 5.7in. x 0.8in. Working from the intriguing hypothesis that Alzheimers dementia is the result of a renegade protein-beta amyloid-Tanzi and others set out to find the gene responsible for its production. Decoding Darkness takes us deep into the minds and far-flung labs of many a prominent researcher, offering an intimate view of the high stakes of molecular genetics, the revolution that propels it, the obstacles that threaten to derail it, and the families whose lives are so dependent upon it. Tanzi and Parson ultimately reveal that Alzheimers, like heart disease, may be effectively treated-even prevented. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
