THE SCIENCE OF REAL-ESTATE AND MORTGAGE INVESTMENT (CLASSIC REPRINT) (HARDBACK)

Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Science of Real-Estate and Mortgage Investment The real property with which this monograph deals generally lies east of the Rocky Mountains, west of the Alleghanies, and north of the 35th parallel of latitude. As the writer is a Kansas City man, the point of view is that derived largely from an experience of eighteen years in the investment of money in and about Kansas City, in both Missouri and Kansas. These investments have had to do with property bought for income and with property bought for speculation; with city, suburban, country town, and farm loans, involving the careful consideration of real estate as security for mortgage indebtedness. While the personal experience of the writer is confined almost entirely to the classes of real estate already enumerated in Kansas City and in the country immediately tributary to it, yet, as the experience of one western city and its environs is much like that of another, what is true of Kansas City is measurably true of Chicago, St. Louis, Minneapolis, St. Paul, Omaha, Denver, and all other western cities. What is true of farming lands in Missouri and eastern Kansas applies with slight modifications to farming lands in Illinois, Iowa, Nebraska, and in the middle-northern States generally. The rain belt which, generally speaking, may be said to extend about 200 miles west of Kansas City that is, to a north-and-south line running through Salina, Kansas - marks the western limits of farming lands in the correct use of that term; that is, of lands of high fertility in a climate suited to the production of miscellaneous crops of cereals and vegetables, notably to the production of wheat, corn, and potatoes....
