Reviews

If you need to adding benefit, a must buy book. It is packed with wisdom and knowledge I am just effortlessly could get a pleasure of reading a written publication.

(Lea Legros V)

SOCIOLOGY FOR THE TWENTY-FIRST CENTURY: CONTINUITIES AND CUTTING EDGES (PAPERBACK)

The University of Chicago Press, United States, 2000. Paperback. Condition: New. 2nd ed.. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. These essays probe issues of central importance to North American societies in the 21st century. The chapters in part one revise theory and methods to comprehend the economic and political institutions that increasingly dominate the lives of individuals and groups, arguing that these giants must be made more democratically accountable. Part two explores the social effects that growing globalization, transnationalization, and information technologies are having on politics, economics and the environment. The final chapters compare how new immigrants from increasingly diversified backgrounds are being absorbed in Canada and the United States, exploring the impact that immigrants are having on pre-existing ethnic minorities and on the dominant political culture. While it is an attempt to refocus the discipline of sociology, the book s nontechnical style and its attention to issues of central concern to all citizens should make it also accessible to nonspecialists.
