Once upon a time; We were as new to this world as was the first person ever born. We asked questions, curious about the world. We were taught right from wrong. We had a value system for making a decision. The Daily News believes in the basic principles of Americanism; the right to criticize; the right to hold unpopular beliefs; the right to protest; and the right of independent thought. Without these principles comes thought control, groupthink, herd behavior and uniform party line thinking. Do Americans deserve the right of free speech? Do Americans know that freedom of speech is the freedom to offend, and forced political correctness is the abridging of this right? What would America be like if its people expressed themselves in unfettered open debates with blunt unpleasant truths? Does not the lotus grow from the muck? Crap is an attack on the absurdities and vices blindly accepted by low, middle and highbrow thoughtlessness, habit and social custom. Crap is the other half of disinformation. Crap tells what new values people are accepting for American culture and the world they are preparing for their children through their laziness, And mommy, daddy, why is the sky blue? Teach them.
