The tragic events of September 11th in New York, Washington, and Pennsylvania have dramatically re-energized the nation's focus and resolve on terrorism. This issue brief examines international terrorist actions and threats and the U.S. policy response. Available policy options range from diplomacy, international cooperation and constructive engagement to economic sanctions, covert action, physical security enhancement and military force. The recent terrorist incidents in the United States, as well as the U.S.S. Cole, Oklahoma City, 1993 World Trade Center, the U.S. embassy bombings in Kenya and Tanzania, and the Tokyo subway gas attack, have brought the issue of terrorism to the forefront of American public interest. Questions relate to whether U.S. policy and organizational mechanisms are adequate to deal with both state-sponsored or abetted terrorism and that undertaken by independent groups. Formal definitions of terrorism do not include terrorist activity for financial profit or terrorists motivated by religious goals. Non-traditional harm such as computer violence may not be included as well. Such activity may well be on the rise. Terrorist activities supported by sophisticated planning and logistics as well as possible access to chemical, biological, or nuclear weaponry.
