Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Slippery Elm is dying off because of Dutch Elm disease mainly from GMO, Glyphosate, Chemtrail and other toxin over exposure. This is no accident or isolated incident, it is intentional in a global genocide in progress involving high technology, toxins, nuclear power plants, and more. Yet it is the number two harvested herb in America and needs protections, non toxic treatment and care so organic pure harvests can be attained for a natural solution to those who don t want pharma toxins in their lives. Living color journal of nature pretty enough to frame the covers. Mother Nature God s creation knows best. Soli Deo Gloria forever.
