

Meeting the Learning Needs of All Children

By Joan Dean

Taylor Francis Ltd, United Kingdom, 2006. Paperback. Book Condition: New. 290 x 201 mm.

Language: English . Brand New Book. Personalized learning involves helping each child to reach his or her full potential - intellectually, personally and socially. To achieve this, teachers need to match learning opportunities to the learning styles and experiences of the children, taking into account individual differences in culture, language, background, ability and interests. For many teachers, individual learning has always been at the heart of what they do in the classroom. In this book, experienced teacher and author, Joan Dean, unpicks the concept of personalized learning and shows teachers how to apply it to planning, teaching and assessing learning. The book is accessibly written and gets right to the nitty-gritty of what personalized learning looks like in the classroom. It covers: * a whole-school approach to personalized learning * getting to know the children * working with boys and girls * providing for children with special educational needs * providing for very able children * providing for children from other cultures * providing for bilingual children * providing for children from different social backgrounds * working with assistants and volunteers.

Reviews

This written book is great. I am quite late in start reading this one, but better then never. You will not really feel monotony at at any moment of your time (that's what catalogues are for about when you check with me).

-- **Abe Reichel DDS**

This pdf is definitely not straightforward to get started on studying but extremely exciting to see. It generally does not charge an excessive amount of. Your lifestyle period is going to be convert once you full looking over this publication.
