Oxford University Press, United Kingdom, 2016. Hardback. Condition: New. Language: English . Brand New Book. Since the end of World War II, there have been 181 insurgencies around the world. They then have to routinely re-assess these decisions over the course of an insurgency. Third, what factors contribute to the end of insurgencies? Finally, what do the answers to these questions mean for the conduct of counterinsurgency warfare? *Waging Insurgent Warfare* is not only a practical handbook for understanding insurgent warfare, but it also has implications for waging...
