Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Conservative Surgical Treatment of Para-and Peri-Uterine Septic Diseases A young woman having forgotten herself, and being two days past her expected menstrual time, resorted to the services of an abortionist for the destruction of a supposed pregnancy, which, however, did not exist. Following the introduction of some instrument into the uterus, she suffered for two days very intense pain, accompanied by some fever. She was not, however, confined to her bed. The desired menstruation not making its appearance, at the end of six days she returned to the man's office, and. A second instrumentation was followed in thirty-six hours by a severe chill, high fever, and excessive pelvic pain. On the sixth day of her illness I saw her in consultation, finding an inflammatory swelling to the left of the uterus in the broad ligaments. On the seventh day, under ether, I made the posterior vaginal buttonhole, penetrated the tissues with my left forefinger, and opened an ovarian abscess containing fully four ounces of pus. Eighteen days later this woman walked two blocks to the street cars and rode home. Her uterus was almost entirely movable; there was no apparent discharge the woman was, to all appearances, cured. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
