Date :2007-5-1. The students entered the ninth grade, it means the test is near. So, what kind of approach should be taken to learn the ninth-grade chemistry, in order to win the test of victory Please your attention to the following aspects: 1. Early preview before class time to practice after school, everything Yu (pre-) is established, not Yu (pre-) the waste. Through the rehearsal, you clear learning objectives for each lesson and they do not understand the issues, can be targeted to greatly improve the efficiency of classroom learning; modest after-school training is very necessary, this will strengthen your memory, to deepen understanding to broaden knowledge and enhance capacity. (2) detailed view of Chaduo Si is a good question chemistry laboratory-based disciplines, for chemistry experiments you can not just watch the fun, is not subtle. You have to look closely before reaction, reaction, reaction, and have a few more like Why Do know these, but know why; for chemical concepts and principles are true, we must understand the nature of everyday living. 3 Features to grasp the law to seize Contents: Introduction of chemical to make the world more colorful interesting scenario stimulated thinking curriculum standards required knowledge, skills and understand the whole challenge of the whole solution of a typical example in the test class standard comprehensive knowledge and ability to enhance the synchronization tracking unit into the chemical world, the first training unit issues a comprehensive explanation of the changes in substance and nature of knowledge and skills required curriculum standards typical of the whole solution of Example full solution Four Satisfaction guaranteed, or money back.
