

## WebMD - Scientific American Medicine

By DALE, David C & FEDERMAN, Daniel D (editors)

U.S.A / Web MD, 2003. Hardcover. Condition: New. No Jacket. This annually-published, 2-volume edition of WebMD Scientific American Medicine comprises just one component of a larger network providing continually updated medical information for practicing physicians & other health care professionals. The heart of this network is an electronic database. Spreading out from this database like spokes of a wheel are the various methods that have developed to provide current medical information, the way our readers need it. A free email service alerts you to new information on the Web site. To present the key recommendations from new chapters, the email alert links directly to our online monthly newsletter. This covers all of internal medicine, plus bio-terrorism & medical emergencies, dermatology, office gynecology, neurology, & psychiatry. More than 200 expert subspecialists with extensive clinical experience provide clear, actionable diagnosis and treatment recommendations. Illustrated with over 1,100 diagrams, photos, & figures. A 1st edition hardback (with laminated boards), in near to fine condition-the paper the set are printed on is thin, so some of the pages are creased, this has not damaged the text. (2768 pages & 47 pages of introduction). This is a very heavy set (over 6.5kg), so there will...
