Angels Mark (book one of the Serena Wilcox Mysteries Dystopian Thriller Trilogy: Angels Mark, Covert Coffee, Bluebird Flown) is a disturbing thriller about futuristic America, a female president, multiple conspiracies, and oddball characters. Serena Wilcox and her family have destroyed their old home and faked their deaths to go off the grid under new identities after obtaining insider information about a threat to the United States. The attack does indeed happen, and after the resulting war (not the focus of this book), America is geographically divided between two governing presidents: John Williams and Japanese-American Ann Kinji. While the new government structure is still in its infancy Serena uncovers a conspiracy that could get her killed. Futuristic America is in the hands of former private detective mother-of-three Serena Wilcox, a scary prospect for sure! Angels Mark is a humorous yet hard-hitting suspense novel ripped from tomorrow's headlines! Conservatives, liberals and independents will all find themselves in this book. The controversial scene a private meeting of the two presidents is...
