Reviews

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).

Excerpt: . spot, for there was an excellent and well-protected harbour with a good piece of beach for their skin-boats, and, as I have said, the situation was charming. The five flat stones which were standing upright and first drew our attention to the place were long a riddle to me, but after I had had some conversation with Captain Holm on the subject, I was inclined to the view that they were stocks for the umiaks, or large skin-boats, that is to say, supports on which the boats are raised to be dried, and to which they are fastened when laid up for the winter. There are besides many other traces of human occupation on these islands, which are, as a matter of fact, not one island, as they are given on Holm s map, but two, divided by a narrow sound, and the outer being the smaller. On several of the points also I found similar cairns of stones, or, as I suppose, remains of old fox-traps. By the outermost islet off Igdloluarsuk we found the mouth of the fjord so full of huge icebergs that we had to go seawards to find a practicable passage. On our way we tried to push between the icebergs, but were soon stopped. The floes get jammed so fast in between these monsters by the furious current that there is no possibility of moving them. So we had to return once more and go further out to sea. If in ordinary ice...
