Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: .an increase of buying recently, especially of the Argentine grade, which has become reasonably scarce. Irrespective of whether or not the contemplated tariff becomes a law, we favor a few months accumulations. Since the low point in July 1921, pig iron production has increased 1 68 percent or from 864,642 tons last July to 2,309,348 tons in May. Should the daily rate of production in May be maintained for the balance of this year, production will amount to 25,532,000 tons. This amount is practically identical with the nine year average 1907 to 1915 inclusive, which amounted to 25,400,000 tons, but is 4 /2 million tons below the five year average 1916 to 1920 inclusive, which aver Steel ingot production since July of last year has shown, a steady increase and May production was 237 percent above July. If the daily rate of production in May were continued for the balance of the year, steel ingot production this year would amount to 29,580,700 tons against 30,280.000 tons in 1913. Over the same period the price of pig iron has advanced 29.5 percent, while composite steel has advanced but 7.5 percent. The question naturally arises, will the steel be in excess of the prewar period and will prices on both show further advances? It is evident that in what may be called norma conditions, the country s requirements absorbed about 25 million tons of pig iron and 30 million tons of steel. Production of pig iron in 1921...
