The book includes a detailed discussion of techniques for using the camera s phenomenal zoom lens, with a maximum focal length of 1000mm, to full advantage. The book also discusses the camera s features for using its built-in GPS tracking to map locations of images and to identify landmarks and other points of interest that can be recorded along with photographs. The book includes examples of the images that can be taken using the many creative settings of the camera, including the Picture Control settings, which let the photographer alter the color processing of images; the Scene and Special Effects shooting modes, with settings that are optimized for various subjects, including landscapes, portraits, pets, sunsets, and action shots; and the camera s strong set of features for continuous (burst) shooting and interval shooting.
