It is the first textbook to fully incorporate the strengths and empowerment perspective while examining values and ethics, cultural diversity, social justice and human rights, social work practice, human behavior, populations at risk, and policy and services. In addition, the text details the roles of the social worker as consultant, resource manager, and educator, and presents an easy-to-understand paradigm that shows students how the partnership between practitioners and consumers takes place at all systems levels. 493 pp. Englisch.
