Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Through the management of electrons as well as electrolytes, a bioelectrical charge can move throughout our body sending critical messages, impulses and signals which manage every process in our body. Unlike the current allopathic approach which tries its best but is oftentimes focused on non-holistic biochemicals and hyper-targeting, a renewed effective bioelectrical strategy allows us to open a blockage, thereby unleashing the natural resources of the body to bring us back to homeostasis and heal. We are bioelectrical machines and this book gives us that theoretical understanding. The Tam Healing System has revived this paradigm and brought it to a new level. When the biophysical electrical properties of the tissues are considered, it makes sense to develop therapeutic strategies that support the body's biophysical electrical processes to potentiate the healing of injured, diseased, cancerous tissues. .Dr. Halthiwanger MD, Electrical Properties of Cancer.
