Nomad Press, 2015. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: From other titles in the Build It Yourself series: Praise for Garbage: Investigate What Happens When You Throw It Out Children's Literature Review "This addition to the Build It Yourself' series focuses on informing elementary students of the impact that garbage is making on our world and provides directions on twenty-five short projects students can use to reduce, reuse, recycle, and rethink' trash . . . format is perfect for classrooms to take on this subject as a group." National Science Teachers Association "Is it time for your students to go GAGA? They'll learn Garbage Awareness and (conclude that) Garbage is Awesome when reading and discovering the amazing investigations in this book." Praise for Planet Earth: 25 Environmental Projects You Can Build Yourself National Science Teachers Association "This delightful and informative guide to the natural world is sure to captivate the attention of young readers." Green Teacher Magazine " . . . written in a child-friendly tone with bold print and fun typefaces. Each chapter includes background information and definitions of the key scientific concepts involved; the book also includes fun Did You Know?' and trivia questions. Also included is a helpful glossary and resource list." Booklist "Both comprehensive and approachable, this title in the Build It Yourself' series combines explanations of science concepts and environmental issues with hands-on projects. Extensive further readings and an eye-catching design filled with drawings complete a title that while educating kids about the environment steers them past despair with the reminder that every individual action helps." Praise for Micronations: Invent Your Own Country and Culture with 25 Projects Bookloons This book offers a creative way to teach older children how governments function and why geography, civics and...
