NEUROCHEMICAL ASPECTS OF NEUROTRAUMATIC AND NEURODEGENERATIVE DISEASES

Springer-Verlag Gmbh Sep 2010, 2010. Buch. Condition: Neu. Neuware - Neurotraumatic (stroke, spinal cord trauma, and traumatic head injury) and neurodegenerative diseases (Alzheimer disease, Parkinson disease, Amyotrophic Lateral Sclerosis, Huntington disease, and prion disease) are afflicting aging Americans with increasing frequency. These diseases result in acute, as well as gradual and progressive neurodegeneration, leading to brain dysfunction. Known risk factors for stroke and neurodegenerative diseases include increasing age, genetic polymorphisms, endocrine dysfunction, oxidative stress, neuroinflammation, excitotoxicity, infection, and exposure to...

Reviews

Basically no phrases to spell out. It is actually rally interesting throug studying time. You can expect to like just how the article writer create this publication.

-- **Braden Leannon**

I just started looking over this ebook. It is actually rally fascinating throug reading period of time. You wont really feel monotony at anytime of your time (that's what catalogues are for about when you request me).

-- **Miss Naomie Kohler PhD**

The ideal ebook i possibly go through. It generally does not cost an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
