Sustaining Coastal Zone Systems (Paperback)

By -

Dunedin Academic Press, United Kingdom, 2011. Paperback. Condition: New. New.. Language: English . Brand New Book. The Coastal Zone is the long narrow interface between land and ocean that is a dynamic area of natural change and of increasing human use. The interface is the strip of land, up to 200 km wide, that is inhabited by nearly half the world's human population, plus the fringing sea. Together, these areas contain more than half the planet's natural and man-made wealth in the form of buildings, infrastructure and machinery, human social capital, and the natural ecosystems that provide food, shelter, waste disposal and other services to people. All these assets are threatened by increasing human demands on natural resources and by global changes in climate, elemental cycling, and economic systems. Protecting them requires policies and procedures aimed at sustainability, but environmental protection is only part of the answer. The human factor must also be addressed. This book introduces a systems approach to understanding and managing complex interactions between the natural ecosystems and the human economies and societies in the coastal zone. It draws examples from a successful European research project to show how communicative rationality, and the...

Reviews

This book might be worth a study, and superior to other. It can be written in easy words and phrases and never confusing. I am just happy to inform you that here is the greatest ebook I have got read within my personal daily life and may be the best pdf for actually.

-- Mrs. Avis Little DDS

Extensive information! It's this type of excellent study. I have read and I am sure that I will go through yet again once more down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Aliyah Mayer
