This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Wipf Stock Publishers, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.What does innovation have in common with theology? More than you might think. Both are ways people attempt to make sense. Both have to do with value and knowledge creation. Both have much to say about change and how we respond to it (or not). And both affect human culture and physical realities with implications for generations to come. A Primer on Innovation Theology explores the territory where innovating and theology intersect. At this intersection, the Primer pours a theological foundation for innovators who aim to create new value for the common good, realize sustainable more than acquisitive value, and pursue generous and just relationships more than merely transactional ones. Adapted from the larger, original volume Innovation Theology: A Biblical Inquiry and Exploration, A Primer is intended for lay audiences, especially innovators, intrapreneurs, entrepreneurs, and investors who are theologically curious about their own roles and responsibilities. Change is unrelenting. How we choose to respond can insulate, insulate, or innovate. If we choose to innovate, our aim is to create new value for others. The success and failure of these aims may reveal whether we are innovating where the plumb lines of God may be more important than the bottom lines of our efforts, in other words, in the company of God. The core idea of this remarkable book is timely, inspiring, and potentially revolutionary, especially as regards selflessness vs. self-interest. Lanny Vincent shows how theology and innovation are not at odds, but deeply complementary. Clear, elegantly written, and practical, the book offers specific direction to those who hope to keep their work wise, humane, useful, and will surely enrich readers understanding of their own purposes. --Marilyn McEntyre, PhD, author of Caring for Words...
