OPTICAL PROPERTIES FOR PREPARED SILVER NANOCOMPOSITE

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | In this book, the preparation of Silver nanocomposite was studied. Nonlinear optical properties and optical limiting properties of silver nanocomposite were investigated. The standard chemical synthesis method was used with different weight ratio of silver. Several testing were done to study the characterization of the sample, including structure testing and optical testing. Linear refractive index and linear absorption coefficient were obtained from absorption and transmission spectra of the silver structure using UV-VIS spectrophotometer. The...

Reviews

A fresh e-book with a new viewpoint. Better than never, though i am quite late in start reading this one. I am happy to explain how here is the very best ebook i actually have study during my individual lifestyle and may be he greatest pdf for actually.

-- **Diana Flatley**

A very wonderful pdf with perfect and lucid explanations. This can be for those who statte that there had not been a worth reading. Once you begin to read the book, it is extremely difficult to leave it before concluding.
