Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.A healthy and sound mentoring relationship is something you do not want to miss in this life. In order to expand your consciousness, you must be willing to open-mindedly listen to information beyond your present level of consciousness. You are what you think you are and you are what others think you are, so without mentoring you will only have half of the information about yourself. To advance morally and spiritually, you will require an outside, well-meaning consciousness to participate with that part of you that wishes to develop and grow morally and spiritually to achieve a better life experience. A standardized mentoring format to follow is imperative, as well, in order to get the same results as the rest of the members of the unified moral and spiritual HSP fellowship in which you wish to gain their support. This volume of 12 Step Recovery Procedures will guide you on your way to achieve an extremely rewarding way of life.
