This book was written by a mother and educator who has three special needs children, each having a different disorder. All three became successful, because their mother chose to play hardball as their relentless advocate and seeker of knowledge. The information she offers inside this book holds the key for anyone wanting to help their child. Power comes from knowing what to do and not settling for anything less. In addition, the author shares her astounding discovery of a cure for her son s autism. A change in diet along with the use of this special food made a surprising difference in her son s life. A book like this does not come along very often. It is a must-read for ALL parents and educators.
