The Parabens, Very Close To
The Ideal Drug Preservatives
Determination of some physicochemical
characteristics and antioxidant activity of parabens

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Determination of some physicochemical characteristics and antioxidant activity of parabens | With the development of the chromatographic determinations in parallel with their analytical applications, non-analytical applications also came into use. The HPLC methods are widely used for the quantitative determination of drug preservatives, but they can also be used for the determination of the preservatives' physicochemical properties. The HPLC method is applied for determination of the pKa values and the lipophilicity parameter...
