If each man is required to have 12 cases in obstetrics, this means that a total of cases must be secured for Harvard. The task is not always easy. Moreover, our big class laboratories are designed for not more than 125 men. Aside from these material factors, however, the fact is that classes of 125 men in the first two years and of 135 men in the second two years are as large as can be taught properly at the present time.
