Taylor Francis Inc, United States, 2018. Paperback. Condition: New. Language: English . Brand New Book. Using Projective Methods with Children is an enhanced synthesis of Steve Tuber s previously published research on the study of projective methods to assess the representations of self and others, as well as the actual interpersonal experiences children internalize in the form of these representations. Integrating conceptual and empirical work, with an emphasis on the Rorschach Inkblot Method (RIM), the book offers unique, evidence-based information on the importance of assessing particular aspects of a child s inner self. The studies cover a broad range of topics such as dreams, anxiety disorders, political oppression, homelessness, and multiculturalism, and each is supplemented with an analytical introduction. A section that discusses future areas of research is also included.
