## STEM CELL AND GENE-BASED THERAPY

Springer-Verlag Gmbh Jun 2007, 2007. Taschenbuch. Condition: Neu. Neuware - The inability of the human body to be able significantly to self repair injured organs and tissues results in a considerable medical and social problem. During the last few years there has been incredible progress, and the achievements in experimental strategies for tissue regeneration, particularly in cell transplantation and stem cell research, have led to potential treatment options for many otherwise fatal conditions. These innovations hold promise for treating or...
