To truly understand Steve Jobs and learn from his lessons, we must begin with the years that shaped him into the person we came to know. As a child, the future genius had trouble paying attention in school. What would cause him to evolve into a great student and completely change the shape of his future? What effect would being bullied by his classmates have on the future of America's technological hero? We will discuss Steve's childhood and young adulthood, covering the opportunities and preparation that led him to become co-founder of Apple. The early years of Apple were certainly turbulent times for Steve and his team members. We will discuss what put the Apple Corporation ahead of its competitors and how the company used Steve's personal beliefs and opinions to create usable machines of the caliber that had never been dreamed before. Of course, no great leaders end up as such without setbacks. The period of time in which Steve was not actively involved in the Apple Corporation were some of the most trying and illuminating of his life. He revisited spirituality and reconnected with family and friends who he had mistreated in the past. Not just anyone can lead a company like Apple. After Steve was removed from the company, several CEOs tried, and failed, to make Apple into the success that it was meant to be. We will discuss Steve's re-entry into the company as Apple's leader and the decisions he made that positioned the company to achieve the success it has seen today....
