Now, here's an authoritative tutorial and reference to building custom data services with the Sun Cluster 3 API. In "Sun Cluster 3 Programming", three leading Sun Cluster experts systematically review the tools, programming interfaces, and features that make custom data services possible. Then, through a series of step-by-step examples, they demonstrate how to ensure that applications can recover smoothly from even the most serious failures. This book: Reviews every facet of "availability" and what it takes to make software available; Provides extensive easy-to-understand code examples, all available for download; Covers all areas of agent development, from quick basics to advanced techniques; Covers all the APIs provided with Sun Cluster 3; Walks step-by-step through making existing applications available, scalable, and cluster-aware. Until now, this information has been available only in a three-day Sun training course. Now, with the help of Sun's in-house experts, you have all the information you...
