

Hawking Radiation 4

By Roman Andie

Lighthouse Books for Translation and Publishing. Paperback. Condition: New. 132 pages. Dimensions: 11.0in. x 8.5in. x 0.3in. A conscious body-sense feel of empathy (cf. negentropic entanglement) has very different geometric connotation from visual sensing. I, as an informant of this thusly conscious experience, can best describe this as infinitely() dense point at heart chackra, where conscious sensations of good feel and bad feel locally alternate in various mixtures and intensities, surrounded with field-like extentions, for which the best mathematical analogy so far has been some kind of Dehn-ball. The ball aspect sensing happens in 3-D andor 4-D, and the ball-like field consists of n-dimensional dimension lines (cf. worm holes) allowing heart-local non-local empathy of good feel bad feel entanglements also with other sentient beings and conscious informants. According to most functional ethical theory and practice Im aware or, the good feel is the norm (universegodlove) and the bad feels are exceptions to the rule arising from breaking of strong entanglements aka attachments, such as actual loss of a love, or fear and worry of loss projected to some other space time sheet than now. Informant expressions such as heart-broken and without himherit, theres an empty space within me, etc. gain very...
