

Architecting Composite Applications and Services with TIBCO (Paperback)

By Paul C. Brown

Pearson Education (US), United States, 2012. Paperback. Condition: New. New.. Language: English . Brand New Book ***** Print on Demand *****. Paul Brown has done a favor for the TIBCO community and anyone wanting to get into this product set. Architecting TIBCO solutions without knowing the TIBCO architecture fundamentals and having insight to the topics discussed in this book is risky to any organization. I fully recommend this book to anyone involved in designing solutions using the TIBCO ActiveMatrix products. -Nikky Sooriakumar, TIBCO Architect, PruHealth
An effective primer for building composite services using TIBCO, this book provides a holistic approach to strategy integrated with implementation details. I find it tremendously useful in moving recursively from business solutions to design patterns to architecture. Tangible examples are provided that build to composite services. And advanced topics are explored that add another valuable implementation dimension. I recommend this book to software architects who need to quickly build an effective business- services-oriented environment. -Abby H. Brown, Ph.D., Enterprise Architect, Intel Corp. The architecture series from TIBCO (R) Press comprises a coordinated set of titles for software architects and developers, showing how to combine TIBCO components to design and build real-world solutions. TIBCO s product...
