Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Timber Industries of West Virginia Production and receipts of veneer logs in West Virginia peaked in 1968. Since then, plant closures have adversely affected both production and receipts. Changing preferences of consumers and the availability of suitable high-quality logs have affected the species distribution of the veneer log harvest over the years. Important veneer species harvested from West Virginia timber lands during the last decade indicate past trends.
