

Infinite Cosmose of Infinite Algorithms for Infinite Transcendental Numbers: Volume 2 (Paperback)

By Narayanan Raghunathan

Createspace Independent Publishing Platform, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This is a seamless Infinite Book: here are the first three womb volumes that can go on eternally creating (generating) the Library Of Babel encased here in endless seed form. The Set Of All Power Series For Transcendental Numbers are discovered and defined here. The idea of a polynomial is generalized into Cosmic Labyrinth Functions extending the idea of non linearity to its Infinite-Levelled seamless fullness. This is the final book of measures in the Library Babel as gifted to Earth. It has been my pain and privilege to have been the conduit of cosmic transmission of Infinite Eternal Seamless labyrinths. Complex Analysis Is Generalized to Each Transcendental Number Space! Endless new possibilities of fractal cosmose are generated by the intrinsic properties of complex functions spaces defined! Fourier Series Laplace Functions Hyperbolic Functions all get generalized to infinite possibilities! A thing to be seen to be believed! Welcome to this Infinite Terrains of Endless measures Infinite and Infinitesimal. You are now in Volume Two of this Labyrinth Infinite Volved book.
