

Materials Science In Construction: An Introduction

By Arshad Ahmed, John Sturges

Taylor Francis Ltd, United Kingdom, 2015. Paperback. Book Condition: New. 244 x 188 mm. Language: English . Brand New Book. Materials Science in Construction explains the science behind the properties and behaviour of construction s most fundamental materials (metals, cement and concrete, polymers, timber, bricks and blocks, glass and plaster). In particular, the critical factors affecting in situ materials are examined, such as deterioration and the behaviour and durability of materials under performance. An accessible, easy-to-follow approach makes this book ideal for all diploma and undergraduate students on construction-related courses taking a module in construction materials.

Reviews

This pdf is indeed gripping and exciting. It is written in easy words and phrases and not confusing. Once you begin to read the book, it is extremely difficult to leave it before concluding.
