Trafford Publishing, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Inside Out: Rise of the Monarchy is the second volume of a fictional trilogy that addresses the assumption of power by elitist politicians to the exclusion of the electorate and their constitutionally guaranteed rights. The president and congress take action to stop those who elected them from demanding transparency and accountability within the constraints of the constitution. They believe that their actions are warranted and will make our country a better place to live. Patriots begin to protest and the president and congress abrogate the constitution and convert our system of government to that of a feudal system. The president demands to be called King or Your Majesty while referring to senators as lords and members of the house as feudal district managers. Military commanders are replaced and even executed to bring the military into conformance with the new government. The enemy of the new government is conservatism despite the king s references to conservatives as domestic terrorists. Patriots led by headmasters Jeff and Ann of Castleway Academy begin the second revolutionary war to remove the king wannabe and restore the Constitution to the people. Inside Out: Rise of the Monarchy chronicles a president and his congress gone awry as they try to bring the country in line with their beliefs and expectations.
