

Status and Prospects for Smallholder Milk Production: A Global Perspective

Filesize: 2.01 MB

Reviews

This pdf is wonderful. It really is written in simple terms instead of hard to understand. It's been developed in an exceedingly simple way and it is just after I finished reading this ebook in which in fact modified me, altered the way in my opinion.

Food & Agriculture Organization of the United Nations (FAO). Hardback. Book Condition: new. BRAND NEW, Status and Prospects for Smallholder Milk Production: A Global Perspective, Food and Agriculture Organization of the United Nations, In 2005, some 1.4 billion people lived in absolute poverty and nearly 1 billion were affected by chronic mal- or undernutrition. An estimated 75 per cent of the world's poor live in rural areas, and at least 600 million of these keep livestock that enable them to produce food, generate cash income, manage risks and build up assets. With the valuable contribution that livestock makes to sustaining livelihoods, especially in rural areas, the development of small-scale livestock enterprises could be a key element of efforts to eradicate extreme poverty and hunger. Milk production is an important livestock-sector activity and it is estimated that nearly 150 million farm households throughout the world are engaged in milk production. Small-scale milk production not only improves food security of milk producing households but also creates significant amounts of employment in the entire dairy chain, which comprises many small-scale rural processors and intermediaries. The aim of this book is to provide a holistic picture on the trends and drivers in the dairy sector as well as the implications these may have for the future of dairy farming, in particular among the smaller-scale, rural producers.
