

QoS dans les compositions de services web : QoS4WSC : Framework pour la vérification de contraintes de temps de réponse d'une composition de services web

By Bassirou Gueye

Editions Universitaires Europeennes EUE Mrz 2018, 2018. Taschenbuch. Condition: Neu. Neuware - Le challenge réel d'une composition de services web, dans un environnement ouvert tel que l'Internet, est d'assurer une haute qualité d'exécution. En effet, bien qu'il existe déjà d'importants travaux autour des compositions de services qui ont notamment permis l'élaboration du standard WS-BPEL, le problème de gestion de la qualité de service (QoS) d'une composition de services manque de solutions flexibles, réutilisables et offrant un degré d'abstraction approprié. Dans ce travail, nous proposons QoS4WSC, un Framework pour la vérification de contraintes de QoS d'une composition de services web. Étant donné que la QoS est absente au niveau des services élémentaires, nous présentons une nouvelle architecture constituée principalement d'un composant qui permet de déterminer le temps de réponse d'un service élémentaire et d'un autre composant qui permet de vérifier les contraintes de QoS d'une composition de services web. En vue d'offrir un outil automatisé qui permet d'estimer efficacement le temps de réponse d'une composition, nous utilisons la technique de 'parsing' des processus BPEL. Signalons que notre travail couvre intégralement la dernière spécification du langage WS-BPEL. 144 pp. Französisch.
