

## Trends in Adolescent Fertility and Contraceptive Use in the Developing World

By Thomas M McDevitt

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1997-08-01 edition. Excerpt: .49 who say they are within 30 minutes travel time of a source for a modern method (a proxy for proximity for married women ages 15-19); and (3) the cost of an annual supply of oral contraceptives as a percentage of gross national product per capita (from appendix table 18). The cost of oral contraceptives is used because young couples, who are more interested in delaying the start of childbearing or in spacing the births of their children, tend to use oral contraceptives more often than other methods (appendix table 15; United Nations 1987: 151-157). The data, from DHS surveys undertaken in the late 1980 s and early 1990 s, show that: The relationship between contraceptive use (of any modern method) and knowledge is positive: countries with higher percentages of married adolescent women knowing a source of a modern method are more likely to have...
