Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.There are many unanswered questions and many unexplained phenomena in the scientific theory of the origins of the universe, the Big Bang theory , and in the theory of Evolution . But these are the best theories we have as of today. When we have a theory we can make predictions based on that theory and formulate hypotheses. These predictions and hypotheses can be tested and proven or disproved. Creationism is a dogmatic description of what happened. Such dogmatic descriptions are not conducive to formulation of predictions or hypotheses that can be tested. That is why such descriptions are discarded as worthless by the scientific community. Even though not formulated in the scientific format and terminology, the creation theory narrated in the ancient scriptures may have some truth to it. The Creation theory as described in the Holy Bible is explained in this book using the Holy Bible: Genesis (study Bible) [True Believers International Version].
