The Next World War: Computers Are the Weapons and the Front Line is Everywhere (Paperback)

By James Adams

SIMON SCHUSTER, United States, 2001. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.It is a silent, invisible, and deadly weapons system. It can paralyze an entire nation without a single soldier being sent to war. We glimpsed its potential on television when surgical strikes on radar sites, electrical power plants, and command networks crippled Iraqi forces during the Gulf War. Now, in *The Next World War*, James Adams shows how a new chapter in military history is being written as the Information Age comes to the battlefield: to bigger and stronger, now add smarter. As increasingly sophisticated computers and microtechnology have become available, the concept of conventional warfare has changed. Technology has already made its way to the front lines: soldiers are now equipped, for example, with new smart technologies such as handheld computers that allow them to e-mail their commanders. There are devices that can sense an enemy's presence before the enemy is visible, by detecting body heat or by communication with satellites overhead. Robotic bugs can even be sent in swarms to sabotage weapons or subdue enemy soldiers. But the most significant and important use of information warfare won't be...
