Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1887 Excerpt: .instruments, and these three objects will be kept steadily in view. Many suggestions have been received from eminent astronomers as to work desirable to be done, but the author much regrets that he is unable to comply with them. Indeed, the time is at hand, when he will have to seek some relaxation, for the work during the past few years has been sufficient to tax his powers to the utmost. In due time, however, he trusts to take up the work again with renewed energy. July 1st, 1893. PRESENTS RECEIVED FOR THE LIBRARY DURING THE YEAR 1892. note.--The Names of the Donors are printed in Italics. Description of the Star Camera at the Sydney Observatory, pp. 12, with plates. Results of Double Star Measures at Sydney Observatory, pp. 22. Preparations now being made in Sydney Observatory for the Photographic Chart of the Heavens, by H....

Reviews

Comprehensive manual! Its this sort of excellent read through. We have read through and i also am certain that i will going to read through once more again later on. You wont sense monotony at at any time of your time (that's what catalogs are for regarding in the event you question me).

-- **Prof. Geraldine Monahan**

Merely no phrases to describe. Better then never, though i am quite late in start reading this one. Its been written in an extremely easy way which is merely following i finished reading this publication through which in fact transformed me, change the way in my opinion.
